

Summer Industry Immersion Report

Undergraduate Class of 2027

Message from the Chairman

“

At Masters' Union, **our guiding principle is "learning by doing"**. Our students have lived up to this ethos during their summer immersions at some of the top companies across industries in which our students have applied their classroom knowledge in real-world business settings.

Objectives of Summer Immersions:

- ✦ **Real-world exposure of students** to how rapidly growing companies operate
- ✦ Taking ownership and responsibility to **solve business challenges**
- ✦ **Cross-functional experience** across roles (from strategy, to operations and marketing etc.)

I am immensely proud that **our first-year students worked at companies that have long been accessible only to final-year students from premier Indian colleges**. For example, one student played a pivotal role in launching a major airline's loyalty programme, while another contributed to the expansion of a leading electric mobility company by helping design new services.

This immersion was invaluable in helping them **grasp the fundamentals of a professional work environment**, including time management, task prioritisation, and managing stakeholders. I look forward to seeing them achieve many more milestones and greater success in the future. ”

Mr. Manoj Kohli

Chairman, Board of Governors, **Masters' Union**
Former Country Head, **Softbank**
Former CEO & MD, **Bharti Airtel**
